EDUCATION

- May 2012** **PhD in plant stress physiology and plant tissue culture**
Oklahoma State University, USA
- June 2003** **M. Sc in plant physiology and plant tissue culture**
Tripoli University, Libya.
- Feb 1988** **B. Sc in Horticulture and Crop Production**
Omar Al-Mukhtar University, Libya.

EMPLOYMENT

Currently, associate professor at biology department, a head of per-medical year department at Elmergib University.

A chief executive of the Libyan Research Center for Sustainable Development

Research Interests

- Ecology and drought as stress environments in agricultural areas.
- Sustainable Development
- Plant tissue culture.
- Stress physiology.

Courses thought

Teaching undergraduate courses such of: Cytology, Cell Biology, genetics, Plant Physiology I, Plant Physiology II, Plant Tissue Culture, Plant Morphogenesis, General Plant Science, Plant Pathology, Plant Disease Control, and Plant Eco physiology.

Teaching post graduate courses such of: Research Methodology, Plant Physiology, Plant Tissue Culture and Cytology

Expertise and skills

- Plant tissue culture lab.
- The use of Li-6400XT portable photosynthesis system
- Greenhouse and field studies
